The N6 Pro Smart PIN Pad is a sleek, white and black device. It features a large, vibrant touchscreen display at the top, which shows a digital clock at 17:31 and the date Thursday, Feb 22. Below the screen is a black rectangular area, likely a card reader or a secondary display. The device is mounted on a black, cylindrical pedestal. A white cable is connected to the back of the device and runs down to a white network switch on the floor. The switch has several ports, including two Ethernet ports and two USB ports. The background is a futuristic, blue-toned environment with glowing light trails and a large, curved, metallic structure. The overall aesthetic is clean and modern, emphasizing technology and connectivity.

N6 Pro Smart PIN Pad

The NEXGO N6 Pro Smart PIN Pad boasts a compact, sleek design ideal for retail environments. Delivering outstanding performance, it offers a user-friendly experience across a wide range of business applications and scenarios.

Performant

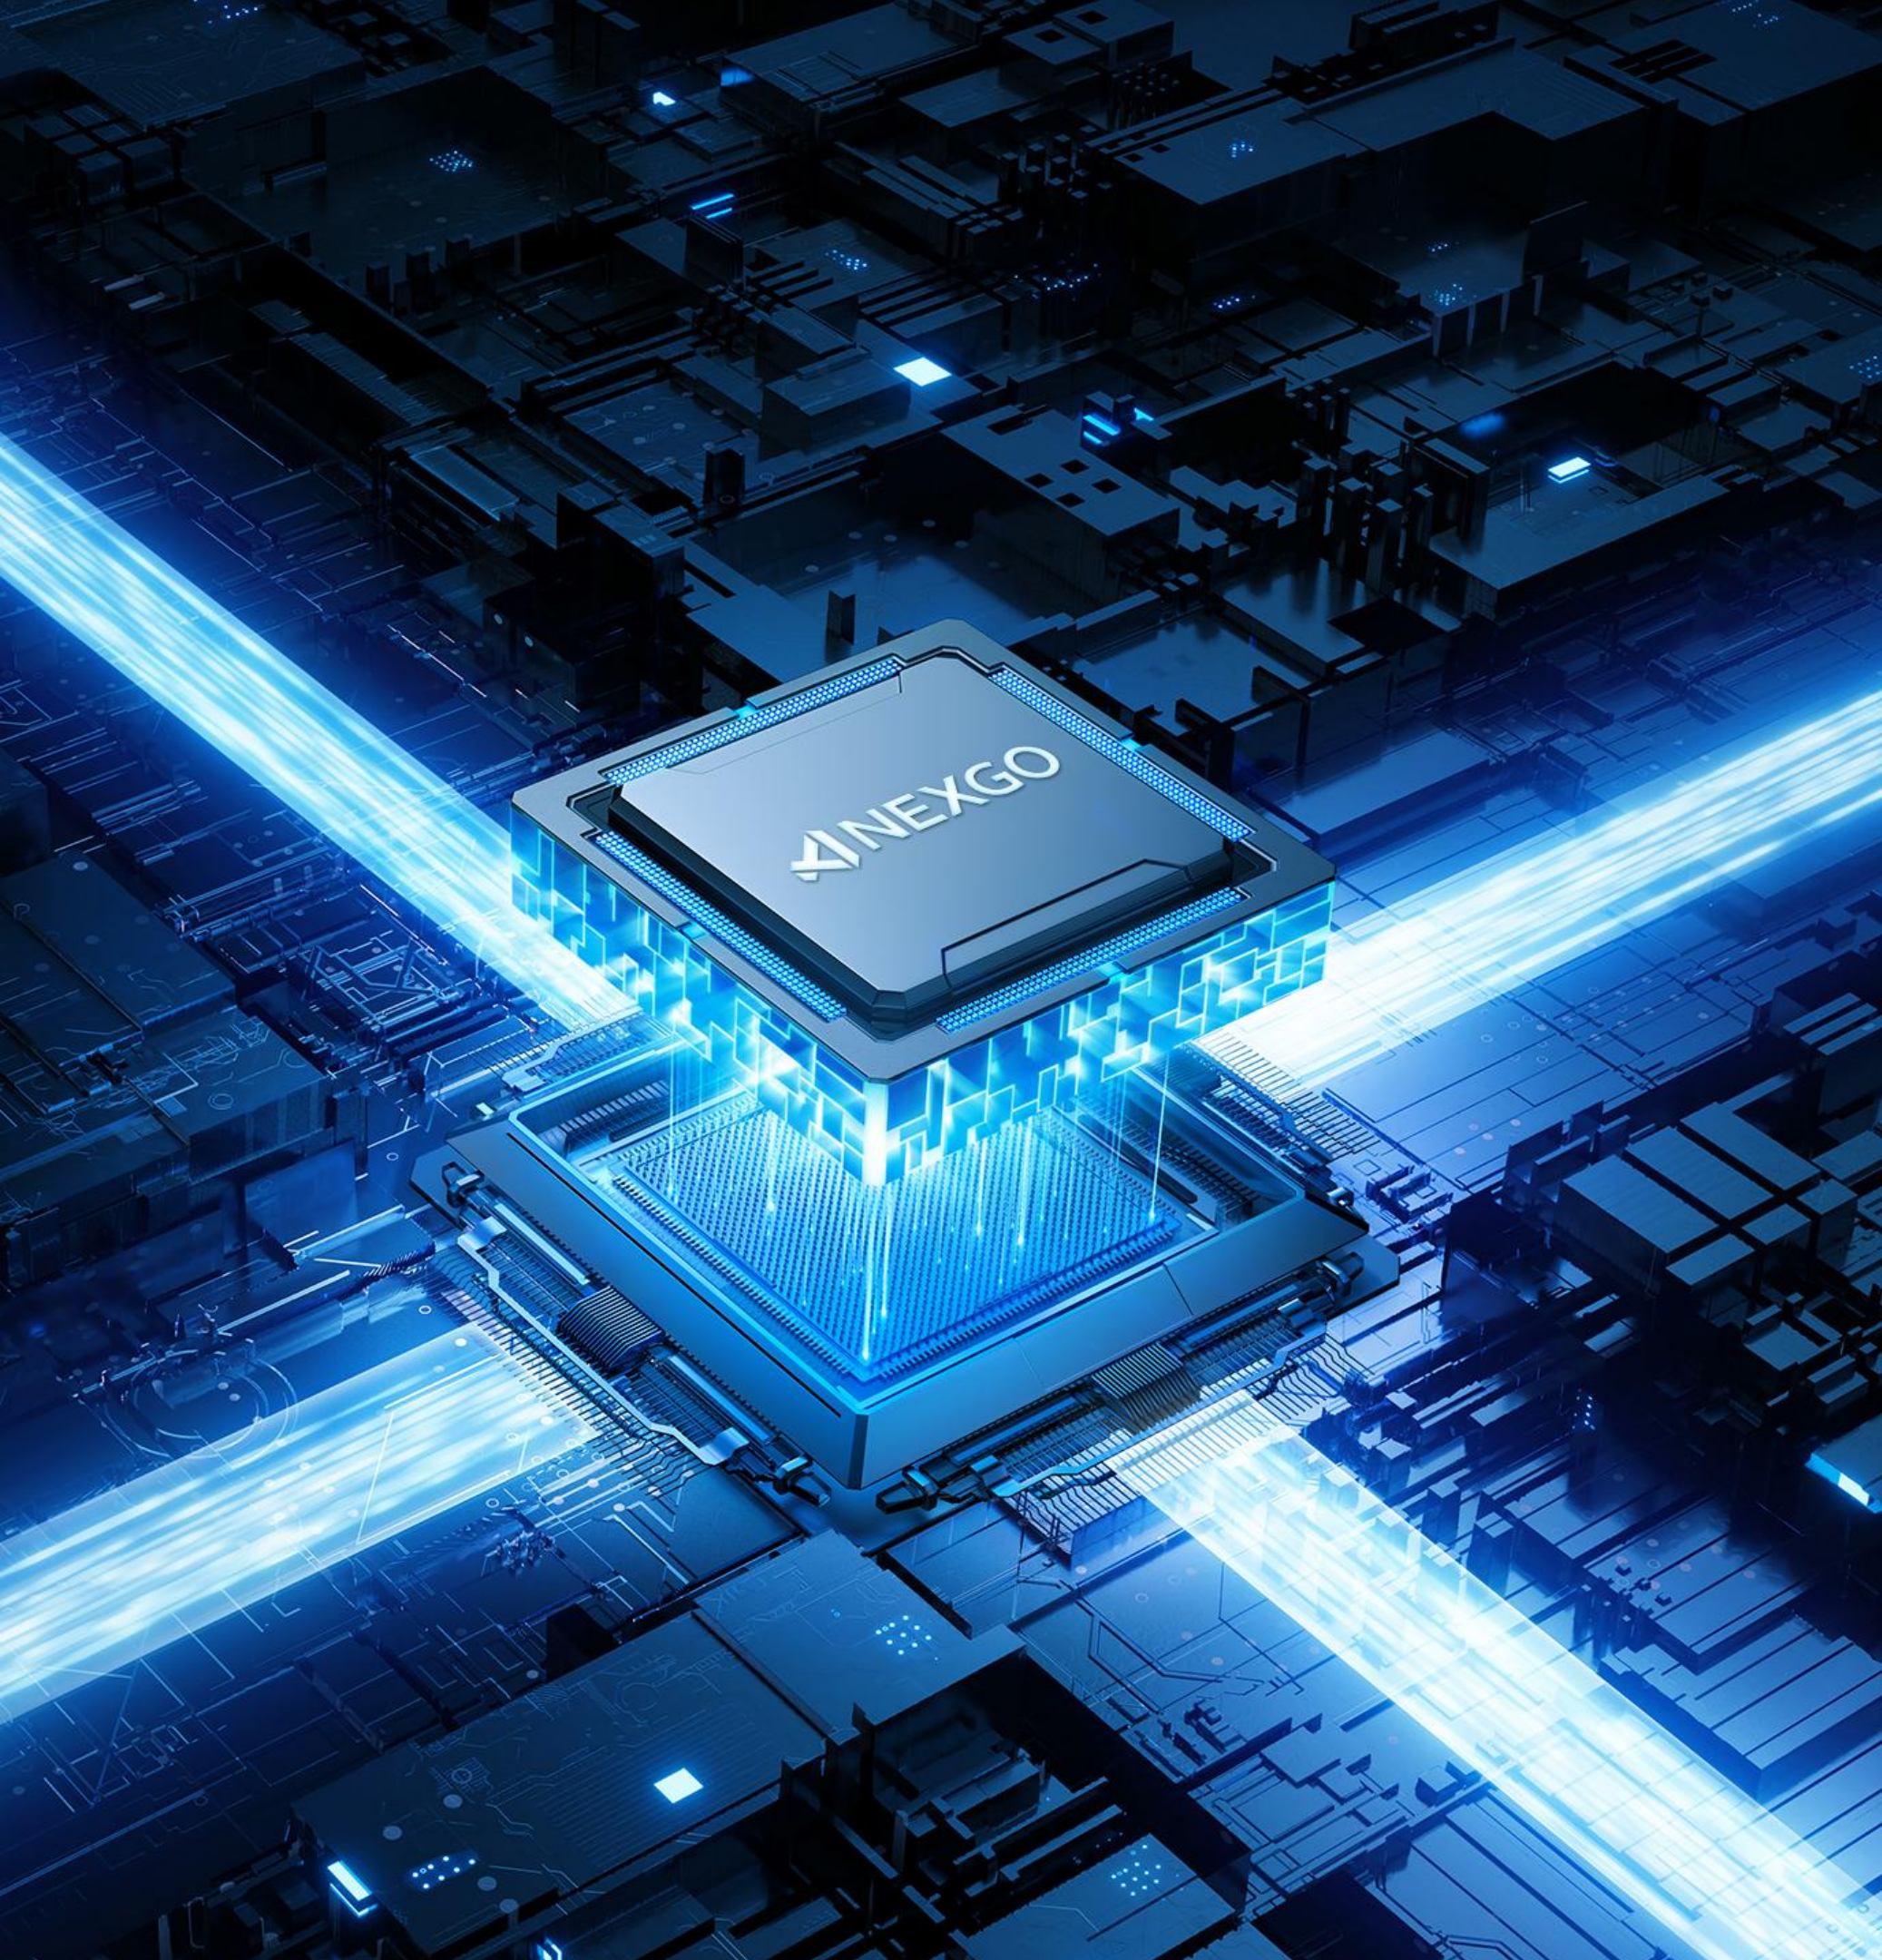

Quad-Core 2.0GHz,
5.5" display, Android 13

Stylish

ECR Compatible

Multi-ports expansion
dock

Outstanding Performance

Powered by an Quad-Core processor, the N6 Pro Smart PIN Pad delivers smooth multitasking and seamless performance, running on Android 13 with a refined and intuitive UI

Featuring a 5.5-inch high-resolution screen, N6 Pro PIN Pad delivers a crisp, responsive interface for smooth and intuitive customer interactions.

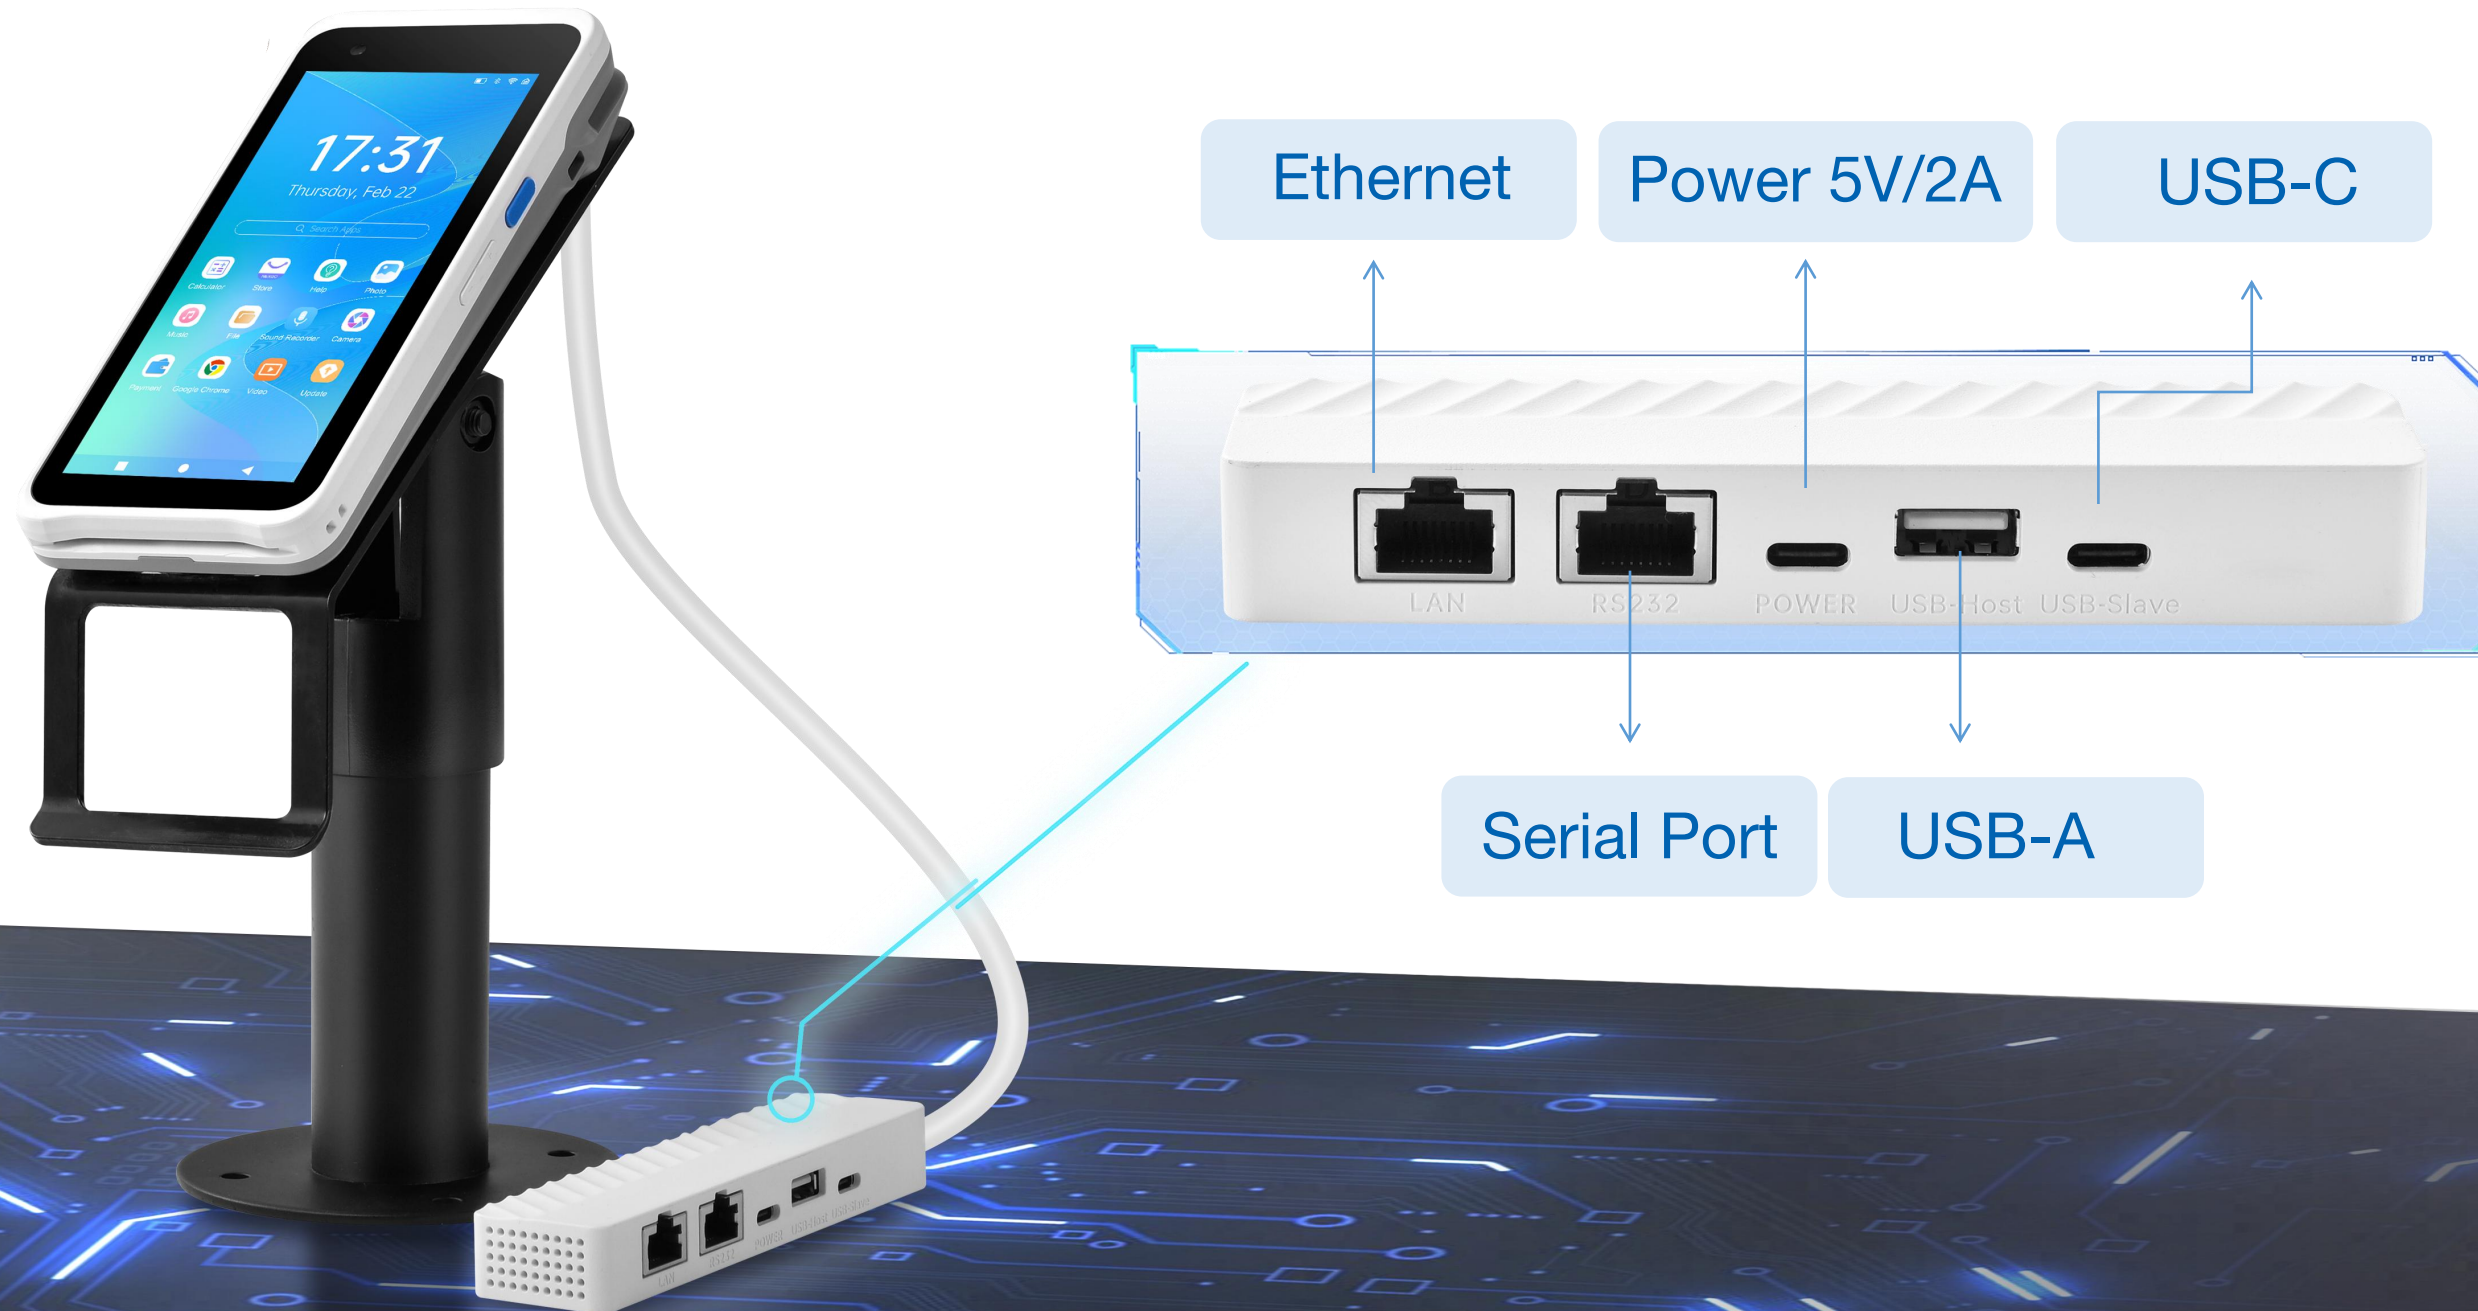

Upgraded Aesthetic Design

With its sleek appearance and premium aesthetic, the N6 Pro PIN Pad stands out in any setting. The ergonomic contour ensure a comfortable grip, while its lightweight, ultra-slim body makes it perfect for various business applications and scenarios.

Hardware Compatibility

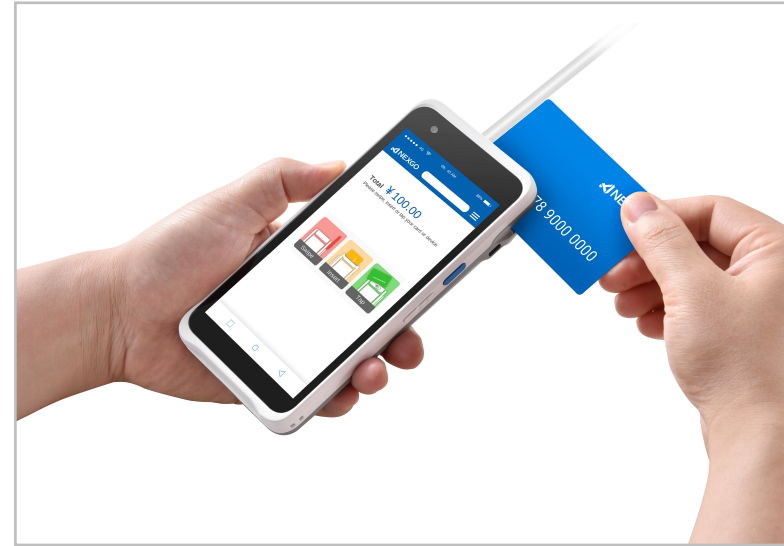

Multi-ports provide the possibility to achieve more functions.
Allows integration with ECR, PIN Pad, etc.

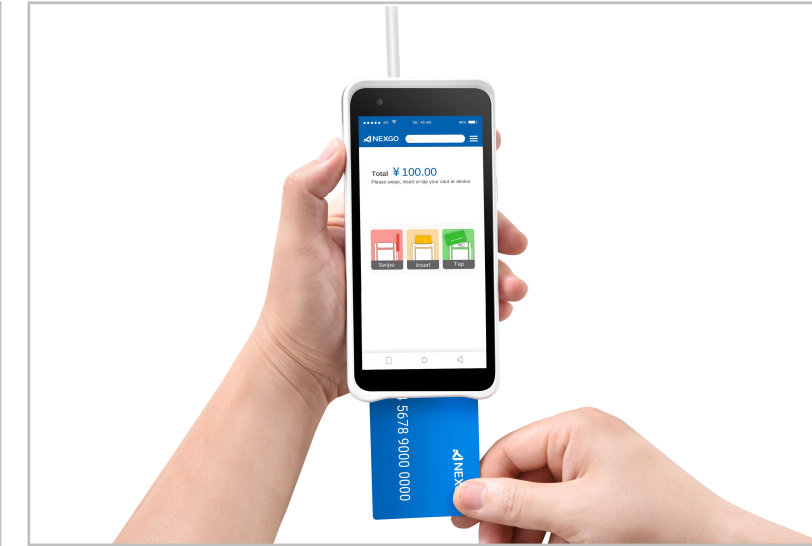

* The HUB features a total of 5 ports. Excluding the POWER port, there are 4 functional ports (LAN, RS232, USB-A, USB-C). A maximum of 3 out of these 4 functional ports can be used simultaneously.

All-in-One

Magnetic strip cards, IC cards, contactless/NFC, 1D & 2D codes are all supported on this PIN Pad terminal. The contactless card reading area is at the upper part of screen as shown in the picture on right side.
